

850 McFarland Parkway, Alpharetta, GA 30004

1-800-JETTING

Mini-Jet Kit & Carry Reel

The Mini-Jet Kit & Carry Reel is one of the most useful options available for a **U.S. Jetting** unit. Factory mounted with an easy single lever quick

release, the Mini-Jet Hose Carry Reel can be quickly removed by the operator for use at the job site, This attachment is a very convenient feature when performing work in buildings or on rooftops.

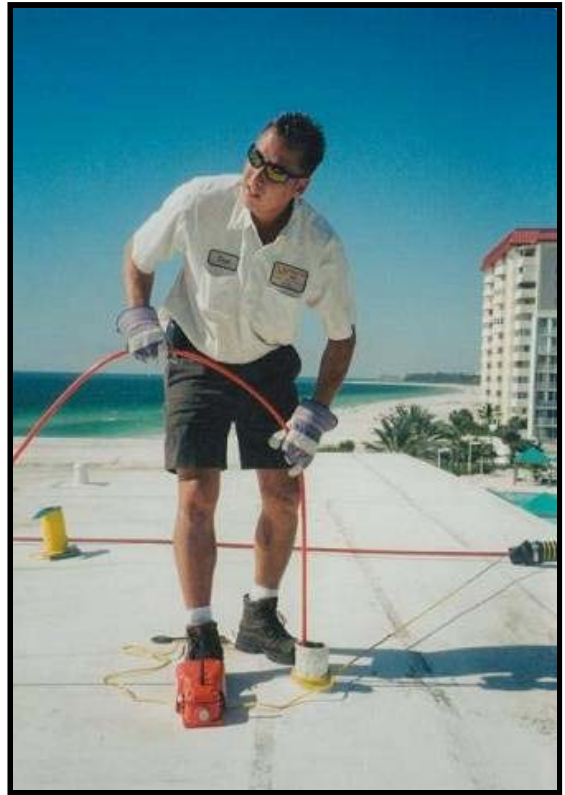

The Carry Reel can hold up to 300 feet of Mini-Jet hose, with a high pressure hose reel swivel for easy connection to the main jetter hose. The Carry Reel can also be used while attached to the jetter unit if so desired. A hand crank assists in rewinding the Mini-Jet Hose.

The Carry Reel can be ordered as an option on most **US Jetting** units, including custom truck mounted, units, skid units, 300 and 600 gallon trailer units

Mini-Jet Kits provide the ultimate in high pressure jetting hose technology for drain cleaning versatility. This allows the nozzle and hose the ability to jump 3 and 4 inch traps or negotiate multiple bends for difficult cleaning applications. Combined with the **U.S. Jetting** Gen II Wireless Remote Control, Mini-Jet Kits provide users the ability to work from remote elevated areas with complete jetter unit control.

Available Ball Jet nozzle configurations

- 3 Rear, 1 Forward (with kit)
- 6 Rear
- 3 Rear

Mini-Jet Hose Kits

Mini-Jet Hose Kits are available in lengths from 50 to 300 feet, complete with a 3 Rear, 1 Forward ball jet and a ½ inch NPT female swivel connector. Mini-Jet Hose Kits are adaptable for use with most brands of high pressure jetting units.
